DESCRIPTION

The Wisconsin-born, Portland-based artist continues his experimental excursions with new album 'Mechanism', following his critically acclaimed 'SPILLEDNOISE' EP in 2016 also released on Shadows' label, and his previous releases on Noh Life and Courteous Family.

'Mechanism' shows the unleashed talent of a musician influenced but unrestrained by IDM, jazz, and classical compositions. Across the 10 tracks Noer explores the futuristic realms of bass music, skillfully mining fragments of drum and bass, hip hop, and dubstep to weave into his sound excursions. The result is modernistic, high energy, and full of unique character.
