DESCRIPTION

Love Adventure is the debut modern funk EP from Austin, TX native and ABC founder Danny Spence. The album is a vision of beach boogie through an exotic lens; a warm combination of modern funk, hip-hop, and jungle sounds. After we digitally released the EP last summer, our listeners clamored for a physical release, so we had to oblige with this limited vinyl pressing! Appealing to fans of modern funk and electronic beats alike, this album will help close the season out right and set the vibe for many summers to come.
