DESCRIPTION

Thumbs are no longer anatomical but rather the static characters of approval for a job well done. They grade the successes playing out in a virtual world and within our own minds. Endlessly gathered into a sprawling market-ready databases rivalled only by our idea of a God.

Thumbs was made as a mixtape by Busdriver to further explore the concept of a homogenous citizenry from his last record *Perfect Hair*. It draws from the defining musical tropes of the LA underground rap experience with the isolation born from racial politics fixed as a central theme. Frequent collaborators such as milo, Mono/Poly, Kenny Segal, Fumitake Tamura all appear for the most action-packed Busdriver release to date.
