DESCRIPTION

MF DOOM is the man in the iron mask. The most mysterious figure in hip-hop has also become one of the most popular, supplying beats and rhymes for Gorillaz, De La Soul, Madlib, Danger Mouse, and Wu-Tang Clan, and drawing praise from heavyweights like Just Blaze, Nas, and Mos Def. Since 2002, DOOM has released numerous volumes of Special Herbs, one of the longest-running instrumental series in hip-hop history.

Volumes three and four of the acclaimed series are now available with a brand new cover. With obscure loops and dusty samples galore, *Special Herbs Vol. 3 & 4* is a must-have for any DOOM fan or hip-hop head.
